

Breathe Easy with Z.

Z Solvent-Free Postformable Adhesive

Z Solvent-Free Postformable Adhesive lets you bond HPL, decorative metals, phenolic-backed veneers and many other materials efficiently, effectively and profitably. **Z** combines neoprene bond strength with regulatory compliance, so you can say "good-bye" to quality problems and safety issues all at once. And with the **Z Solvent-Free Postformable Adhesive Canister System** you can reduce adhesive equipment hassles and focus on doing what your business does best.

SAFE & COMPLIANT

Zero VOCs. Zero Flammability. Zero Methylene Chloride. Zero HAPs. Zero Solvents.

GREENGUARD & LEED

The *only* contact adhesive to be GREENGUARD® Indoor Air Quality Certified and Children & Schools Certified. Exceeds LEED® EQ Credit 4.1: Low Emitting Materials: Adhesives & Sealants and SCAQMD, Rule 1168.

STRONG BONDING

Excellent green strength. Excellent for postforming. Stronger bond than most solvent-based contact adhesives. Stronger than *any* other canister.

HIGH YIELD

Delivers 3-4 times the coverage of most solvent-based adhesives.

FAST DRYING

High solids, high rubber content help Z dry fast!

CONVENIENT

Easy to spray, brush or roll on. Available in self-contained spray canister system.
